UI Designs for LMS Project

These are the UI designs that will be used in the Learning Management System (LMS) project. The designs cover the core functionalities and user interfaces required for an effective LMS, including:

- Login and Registration Screens
- User Dashboard (Student/Instructor/Admin)
- Course Catalog and Enrollment
- Course Content View (Videos, PDFs, Quizzes)
- Assignments and Submission Panel
- Grading and Feedback Interface
- User Profile and Settings
- Admin Management Panel
- Trainer Management Panel
- Student Management Panel
- Notifications and Messaging System

These designs focus on user experience, responsiveness, and accessibility across various devices.
